

Giganotosaurus

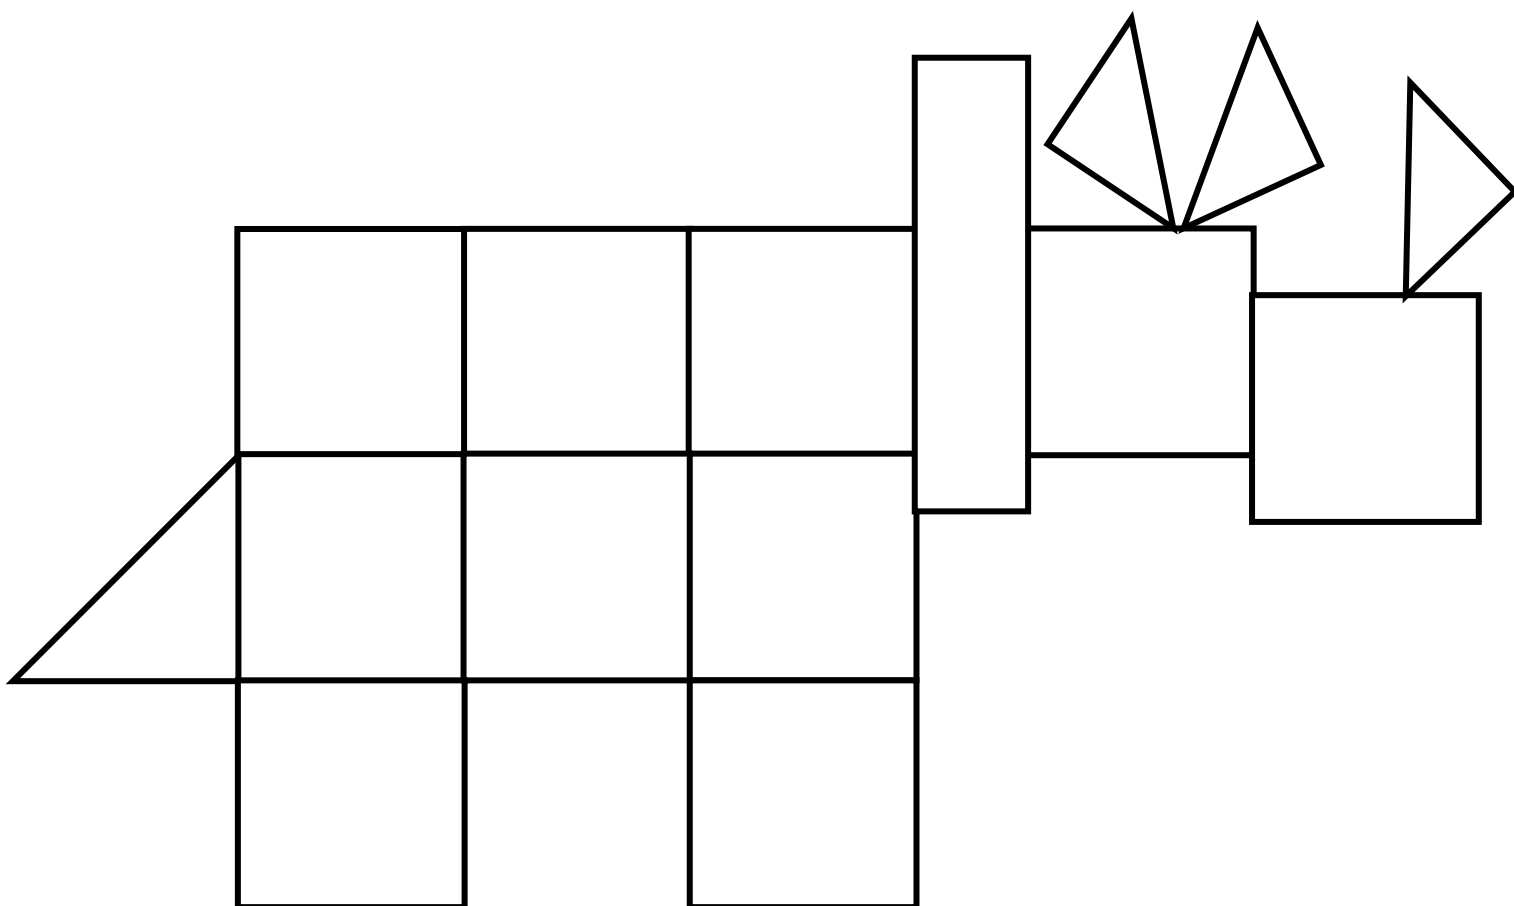

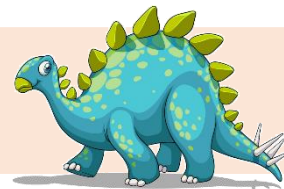

Velociraptor

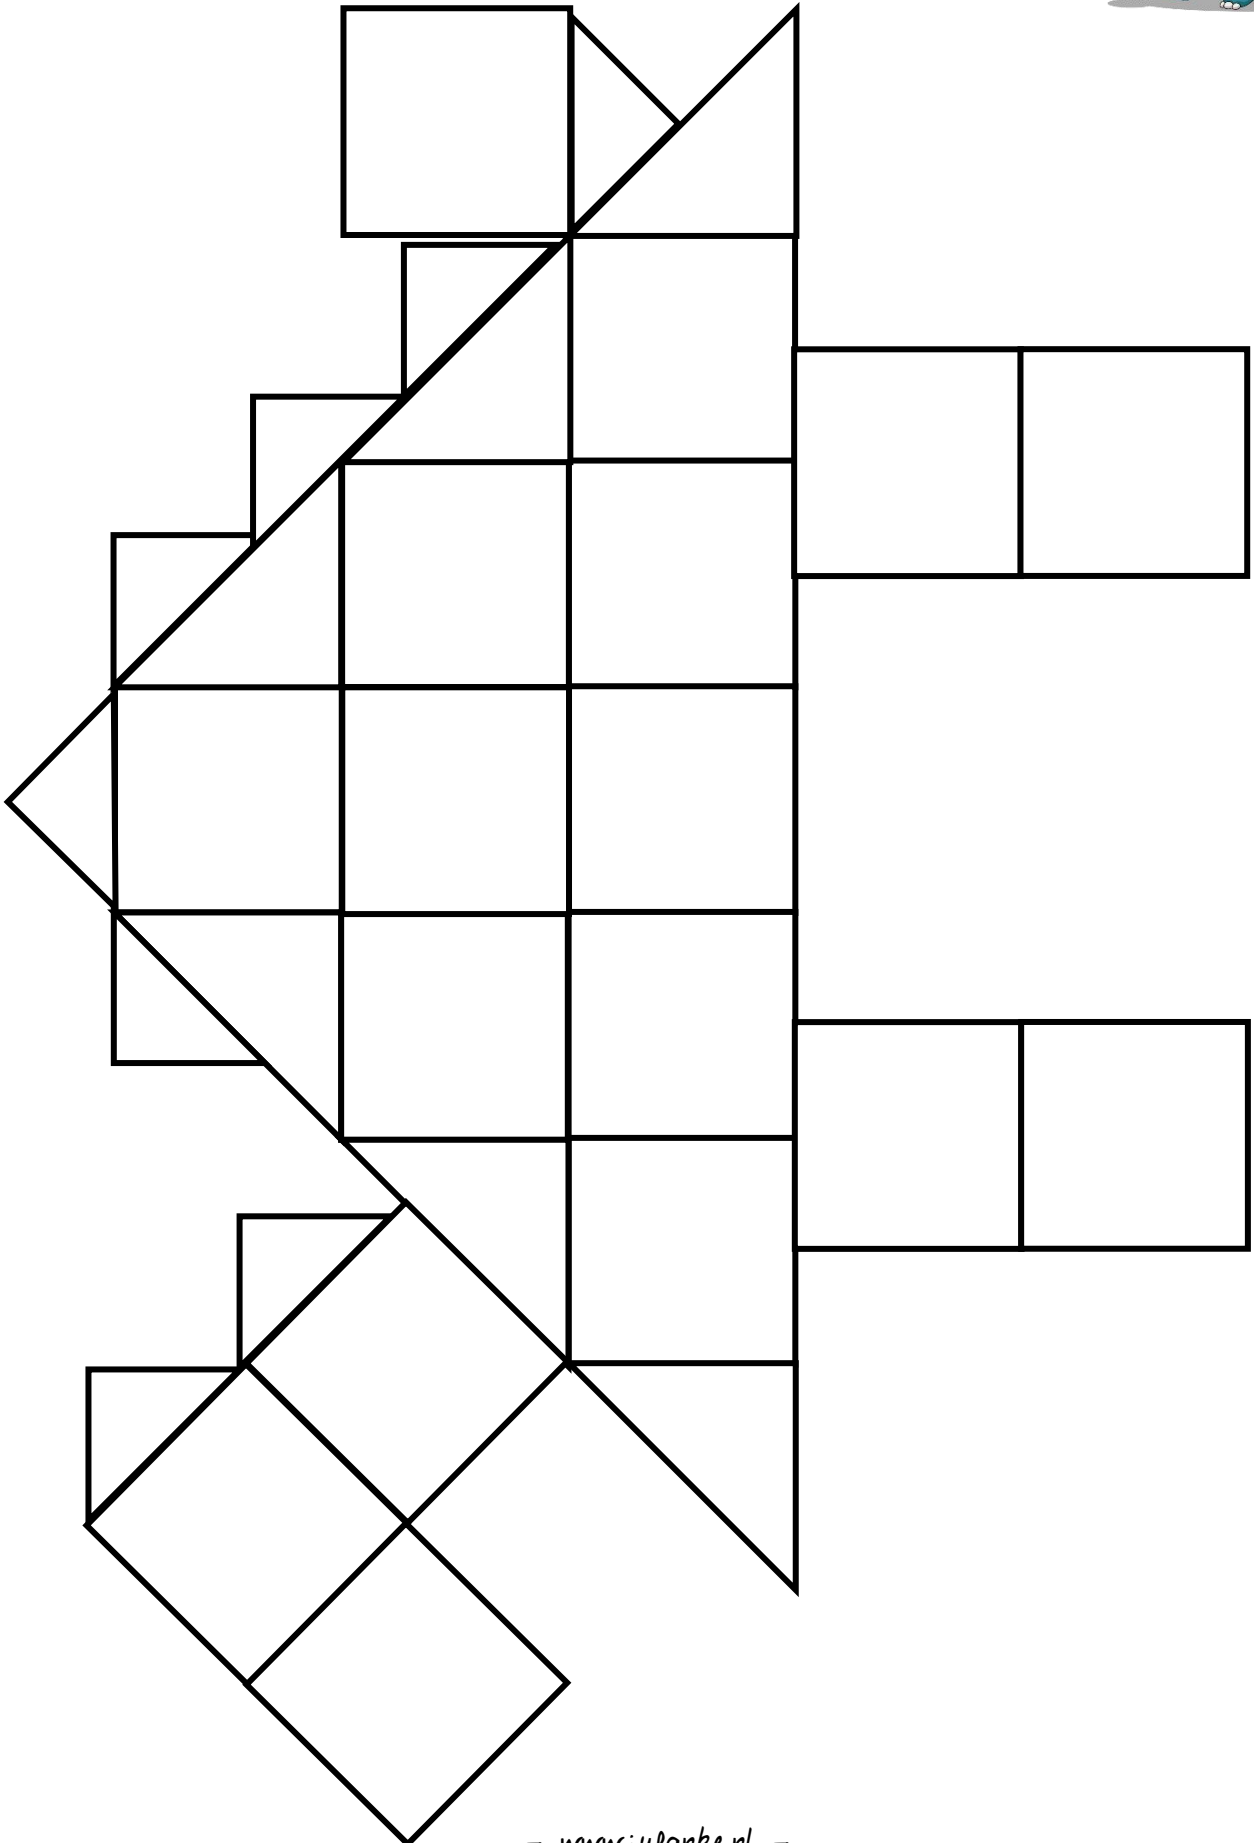

Pterosaur

Triceratops

Stegosaurus

Leg het skelet

Knip de schedels uit en lamineer ze. Laat de kinderen met losse materialen het skelet aan de schedel leggen. Gebruik hiervoor wattenstaafjes, Kapla, kleine blokken, mozaïekfiguren of wc-rollen. Kleine dinoskeletten kunnen op een vel zwart papier worden gemaakt, grote skeletten op de vloer.
