

Cactusbloemen

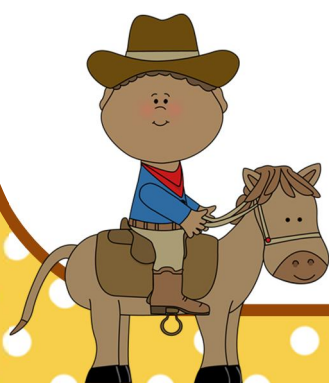

Wat een prachtige cactussen staan daar langs de weg.
Cowboy Dann stapt van zijn paard om ze te bekijken.
De cactussen hebben knoppen waar binnenkort de mooiste
bloemen uit tevoorschijn komen. Geef jij de cactus zijn
bloemen?

Print de opdrachtkaartjes uit en lamineer ze.
Doe hetzelfde met de grote cactus van pagina 2 / 3.
Zorg voor teldopjes in de kleuren geel, blauw, groen en rood.

De kinderen pakken een opdrachtkaartje en leggen dit
aantal bloemen op de cactus (de grote kaart). Ze oefenen
hierbij het tellen en het herkennen van de getalsymbolen.

De opdrachtkaartjes verschillen in moeilijkheid,
te zien aan de kleur van de buitenrand.

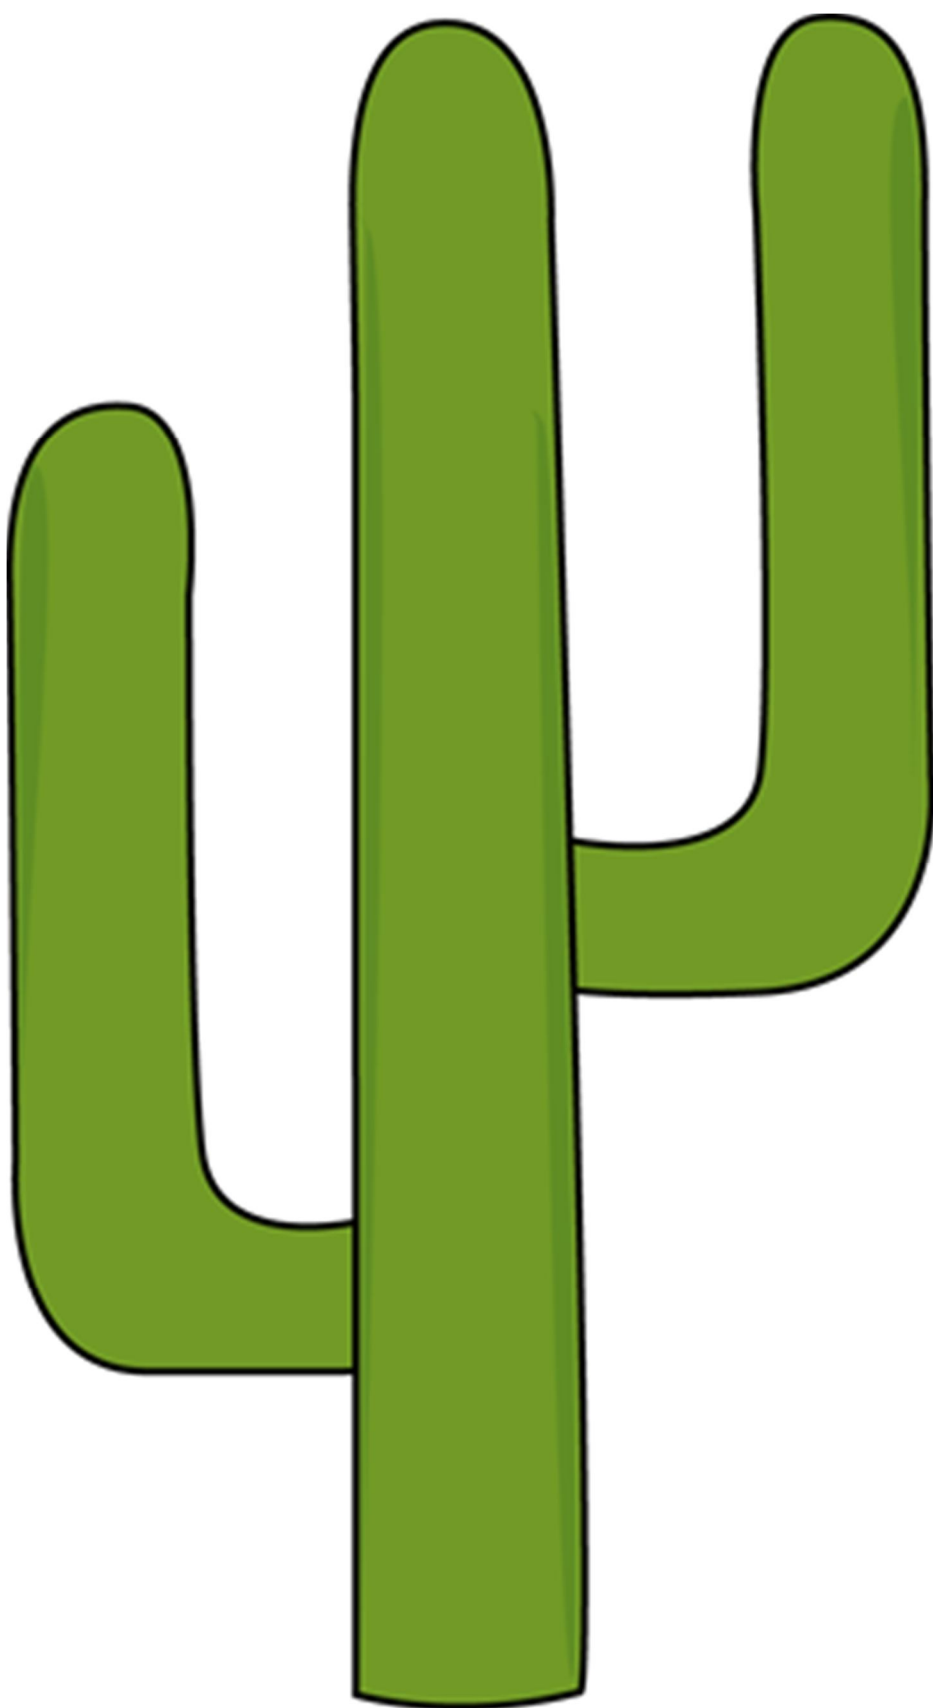

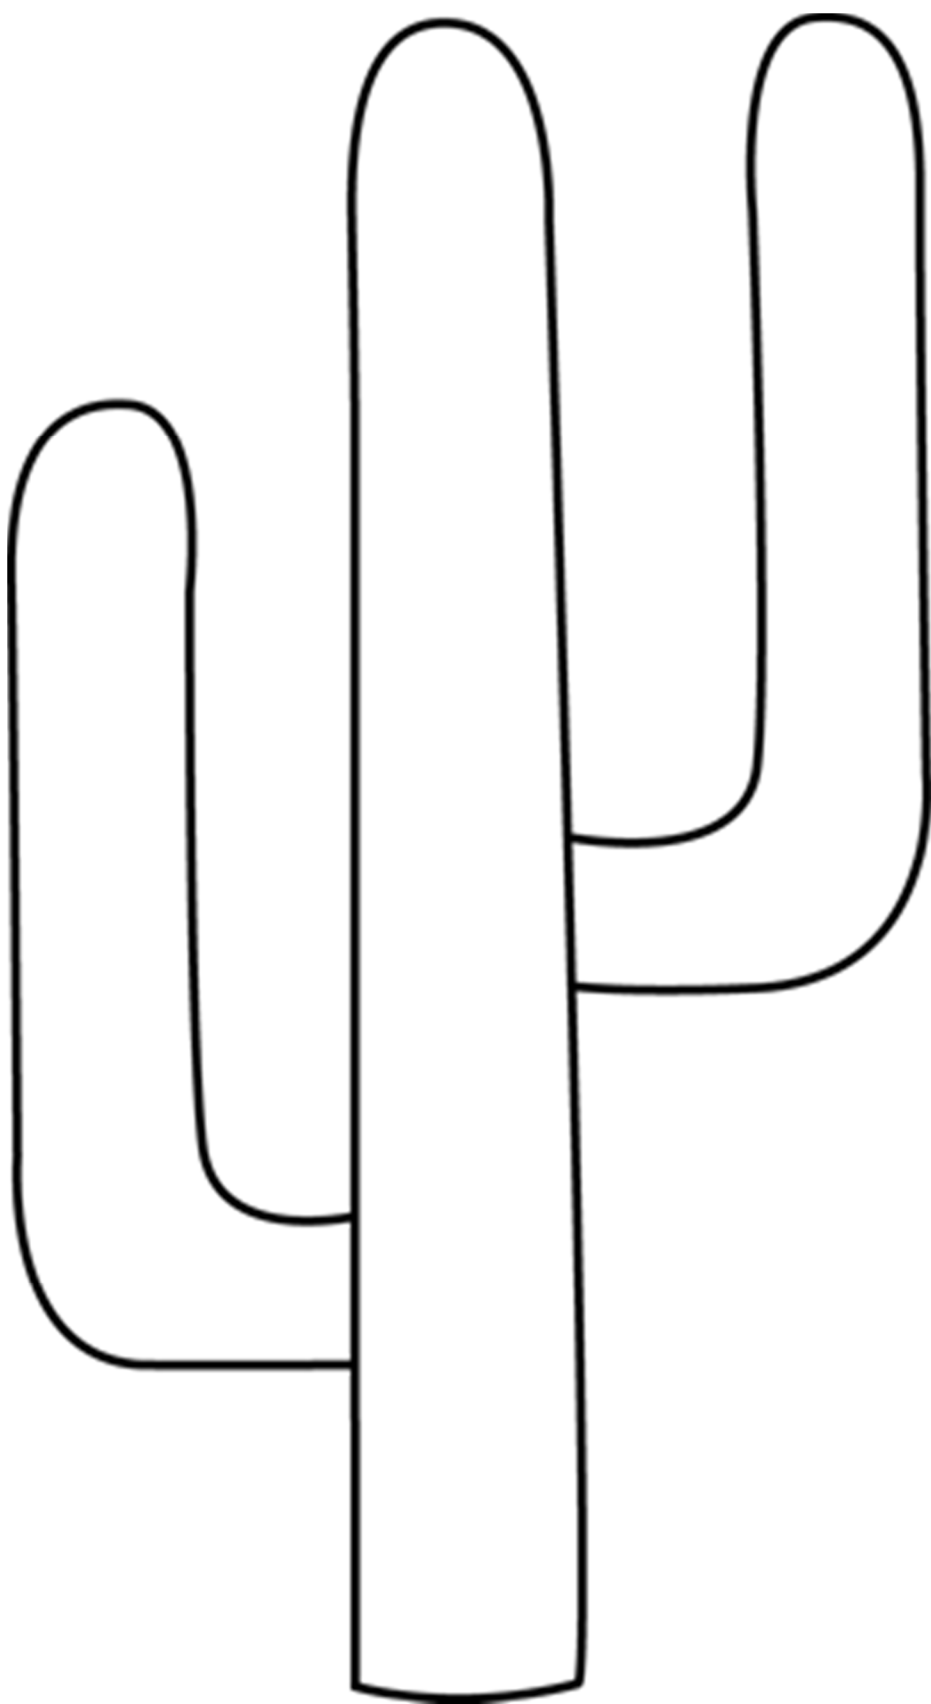

Veel plezier!
